FROM: VC/NIC (FH)

The attachment is intended to be the penultimate version of our revision to the 1981 guidelines for interagency production.

This is a Community guide and does not describe each step that you, the NIC/PO, the SRP, and the DCI/DDCI take in our review process. Nevertheless, the major steps and their sequence as described in the Procedures should be consistent with what we do.

Please provide your comments to me by 19 August. You may wish to refer to this for our discussion with the SRP on 13 August.
